

Requirements for printed documents

All graphics must be complete without need of modifications and in a file format compatible with our applications.

File formats accepted:

- Adobe Photoshop
- Tiff
- Eps
- Pdf
- Jpeg

File characteristics:

- Resolution of at least 70 dpi at 1:1 scale
- Color method must be CMYK
- All text must be rasterized or converted on curves
- File measures must match final print measures or in proportion
- Always consider an extra print edge on borders (1 inch/2 cm.)
- We can guarantee the best quality only in presence of print tests or Cromalin previously approved by the client

Delivery deadline:

- Files must be delivered at least 20 days before the fair's inauguration

Delivery by FTP:

You can request a reserved FTP access by sending an email to:

ftp@dumas-intex.it

Successively you will receive the account to log in the file transfer area.
